EXECUTIVE ORDER No.- 003 - 2017

American Samoa Commission on Domestic Security

Whereas, the peace and security of American Samoa is threatened by the rise in dangerous and bold criminal activities happening not only in our population centers, but even in our remote village communities; and,

Whereas, this rise in criminal activity is bolstered by the continuing influx of illegal drugs, weapons and other illicit products, and what appears to be a growing attitude of indifference among our leaders and people towards the problem; and,

Whereas, the current condition threatens not only the safety of our people, it strikes at the very heart of our economic initiatives as investors and visitors could be deterred from investing in or visiting an unsafe community; and,

Whereas, the job of securing the peace and safety of our island community rests in the hands of everyone, from our village, religious, and government leaders, to parents and teachers, as well as government agencies charged with securing public safety; and,

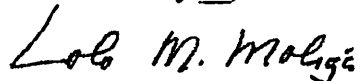

Whereas, among other options that are available, it is appropriate to consider incorporation of our traditional cultural values around protecting the safety of our villages through the involvement of our village chief councils under the supervision of the Office Samoan Affairs.

Now therefore:

- 1. Authority:** This Executive Order issued under the authority granted to the Governor in Article 1 Section 15 and Article IV Section 6 of the Revised Constitution of American Samoa, and Section 4.011 American Samoa Code Annotated.

 - e. To review and consider ways to improve cooperation between village and local-based entities and law enforcement; and,
